What others are saying about our curriculum

Using the DRP curriculum with junior high students was one of the highlights of my teaching assignment. The teacher's text is a very helpful resource. I was able to easily plan ahead. The lessons are creative and fun and my students *enjoyed* Bible Class. My students loved the dramas, the skits, and bringing cocoons to class. Most importantly, in my view, the class had great discussions on the meaningful and important topics covered in the curriculum. It was right on target for junior high. I saw my students growing in knowledge and developing deeper relationships with the Lord. I highly recommend it.

*John Kallin,
New Tribes Mission School*

I just received my order and I am so excited! I have been homeschooling for 18 years, and this is the best Bible curriculum I have ever seen! It incorporates the three components that I have constantly tried to find ways to teach my kids; Bible memory, inductive study with an emphasis on application, and a heart for the world resulting in participation in the Great Commission.

*Cindy Greenplate, 18 year
veteran Home School mom*

This is our third year using *Discovering Our Amazing God* in our school. We enjoy this curriculum because it is creatively put together and brings out creativity in the students. Students don't just repeat facts or give "pat" answers but are required to think as they express themselves through poetry, drawing, hymn writing and journaling. Students regularly mention at their Grade Eight graduation that the Bible course was a highlight of their school year! They are definitely "discovering their amazing God" with this curriculum. Keep up the good work!

Lena Wall, Mt. Salem Christian School

Thought-provoking questions rather than questions that ask for one-or two-word answers lead the student to understand and apply each lesson to his/her own life. Memorization of significant Scripture passages and systematic careful review enhance the retention of truths studied. These studies provide the teacher with excellent support whether experienced or new at the task.

Lila Dean Bruckner, Ph.D., Education Consultant to PIONEERS

The authors guide the students to discover and apply biblical principles in their spiritual growth. It will challenge and equip students for a life that is God-focused, yielded, obedient, and fruitful. The authors have produced an extremely "teacher friendly" curriculum that includes everything needed to be academically sound and biblically based. Excellent!

Here are some extended thoughts on mentoring and discipleship.

Our heartbeat is having home school parents be directly involved with their students in discipleship and mentoring as they work through the Bible lessons together. We believe Bible is the most important subject you model and teach your student(s) in homeschool. There is always remedial math, English, and other courses but if children don't get a solid, practical, personalized Bible education during the formative years, they will be ill-equipped to weather the storms of life in college or adult life.

We have encountered some home school parents who are looking for a "silver bullet" Bible curriculum where they can hand a "workbook" to their student(s) to do on their own. They don't think they need a teacher's guide or personal involvement. Big mistake-these are the last and most important years that a parent has to influence their students toward God and his truth.

Minimum effort IN = Minimum results OUT! (our soapbox-smile)

Unfortunately today we sometimes see a disconnect in church-going youth between their "church" life and their "regular life".

We believe our inductive Bible study methods will help correct this. Our Deeper Roots motto is:

"Helping move students from Bible knowledge to spiritual application"

11th & 12th Grade Bible Curriculum

ROOTED & GROUNDED, A Guide for Spiritual Growth
Howard & Bonnie Lisech and Jan L. Harris,
Deeper Roots Publications Download FREE pdf sample portions

This curriculum can be used for a full year of Bible with 10th, 11th or 12th graders in either Home School or Christian School. It can also be used for high school, college, adult classes, Bible studies, discipleship, or small groups. Featuring 27 of Julie Bosacker's beautiful sketches, an unreached people group begins each weeks' Bible study. Students are introduced to world missions as they move from biblical knowledge to spiritual application in these topical studies. Concepts like *Walk as Jesus Walked, A Pure and Holy Life, Servanthood, Unrealistic Expectations, The Principles of Relationship and Fellowship, and Submission and Obedience to Authority*, are some of the lesson titles presented in an appealing and easy-to-use format. The *Teacher's Guide* is a blessing since all the preparation work is already done and clearly outlined. The *Student Workbook* has room for writing the answers and filling in the blanks.

Here is an unsolicited letter from a friend that has used our curriculum.

Dear Bonnie and Howard,

I know I've told you how much we have enjoyed your Bible curriculum but I wanted to put it in writing as well. You may feel free to use any part of this in marketing your products – but don't feel like you have to. I just want you to know how much we appreciate all the effort and energy you have put into developing this.

Over the years we have worked our way through all four *Discovering....* series books of the junior high series and completed *Rooted and Grounded* this year. It has long been my habit to begin our school day with Bible. Because I tend to use a unit study approach to schooling, studying the Bible has never been a 'class' but just a part of our lives. God has richly blessed us over the years with good materials and many happy hours of discussion and learning together. By far the best of all the good studies we have done, the *Deeper Roots* Bible curriculum led us consistently into a close fellowship with our Lord and Savior Jesus Christ. Bonnie, as my mentor you have taught me well to 'study the Bible to know God, not just to know about God' and that foundational principle flows throughout everything you've written. And I pray that I have taught my children the same.

Because we used the curriculum for our group study time – and not personal devotional time – we worked our way through most of the questions together, discussing as we went. There were times that we got so deep into our study that we looked at the clock and OOPS - it's lunchtime! How wonderful to be so caught up in our Bibles that we completely lost track of time! We studied cultures and geography and history along the way. Our hearts were enlarged as we prayed for people all around the globe – and we look forward to meeting some of them in heaven someday.

By God's incredible grace, all four of our children love the Lord and are walking closely with him. Three of them have participated in short term mission trips and the youngest is already saving his money in anticipation of the day when it's finally his turn.

What will we do next now that we've finished the series? Well, since my youngest was just a little guy tagging along when we started, we're going to start again! This time it's just the two of us – and we're gonna have a blast!

I give thanks to the Lord for you, your ministry, and your friendship!

DISCOVERING A CHRISTLIKE CHARACTER,
8th, or 9th Grade **BOOK 4**
Jan L. Harris, Howard & Bonnie Lisech
Deeper Roots Publications Download FREE pdf sample portions

Discovering A Christlike Character is the final book in the DISCOVERING series. It uses Bible accounts of Christ's life to challenge your students to a lifetime of following His example. As they focus on the character of Jesus, such as His compassion, mercy, forgiveness, and patience, they will be drawn to Him and desire to be more like Him. The first chapter covers "Discovering Christlike Joy" and the final chapter is "Christlike Love." Other chapters include lessons on integrity, self-control, humility, and forgiveness. (Some home school families use this for 10th grade.)
